

SafeNetRx

Pharmaceutical Safety Net Programs

**Patient-Centered Health Advisory Council
Programs to Address Recidivism**

Jon Rosmann, CEO

Formerly the Iowa Prescription Drug Corporation

501(c)(3)

Established in 2001 to provide pharmaceutical access to lowans who cannot afford prescription drugs.

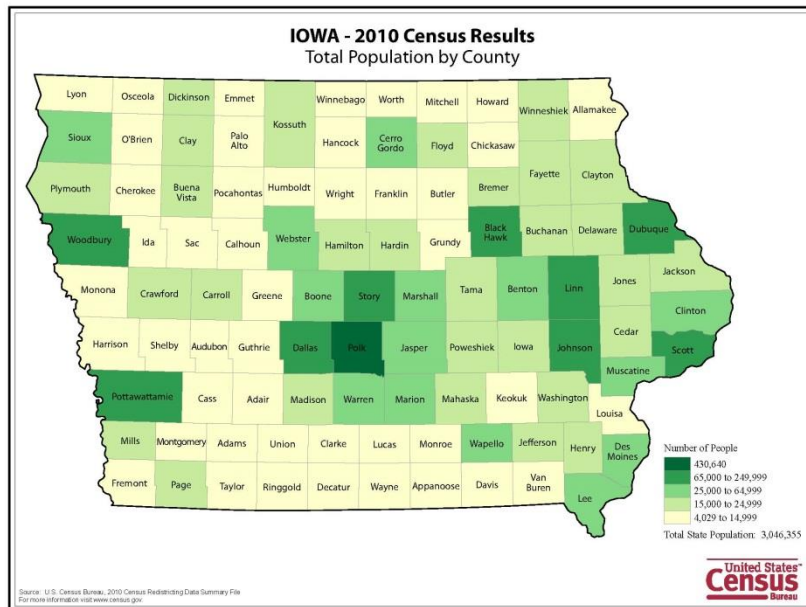

Serve Iowa's Safety Net Patients - uninsured or underinsured lowans with incomes 200 percent of the federal poverty level or below

Safety Net Services

- Address issues of pharmaceutical access through innovative, non-traditional partnerships.
- Leverage scarce resources and create value for all stakeholders in our health delivery systems.
- Short-term, Gap Assistance
- Focus: Safety Net Patients – High cost users
 - Uninsured and Underinsured
 - Medicare eligible lowans
 - Individuals with Chronic Behavioral Health Disorders
 - SafeNetRx and NAMI-Iowa Collaboration
 - State and Local Offenders

Jail Population

10 most populated counties average 2,300 people a day in total within the jail system. Last year, Polk County discharged 20,000 people.

Addressing High Rates of Recidivism

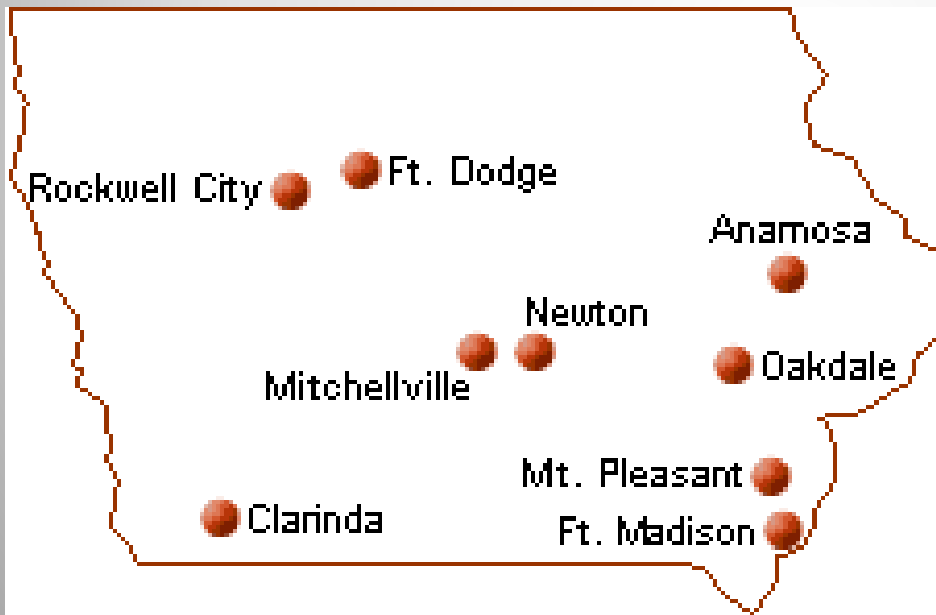

To effectively reduce the rates of recidivism in Polk County, offenders identified as mentally ill should be targeted.

Polk County Jail: 25% of Inmates, those potentially having mental illness, accounted for 44% of All Bookings

- During the last six and one-half year period, since the new Polk County Jail opened, 25% of Polk County inmates identified as mentally ill (15,370 of 60,585 total inmates) accounted for 44% of the bookings (61,159 bookings of the 138,070 total bookings).
- Of the 15,370 inmates identified as mentally ill, 73% of this group are **recidivists** (11,225 inmates).
- Consistent finding over time
 - Relatively long study period

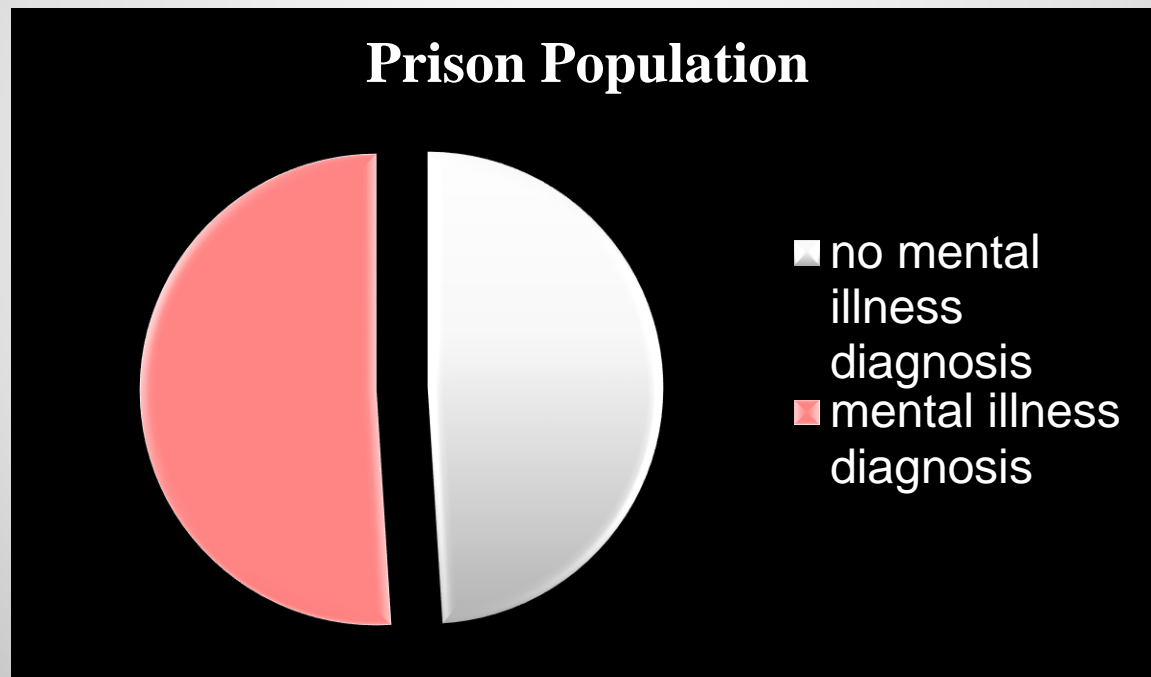

Prison Population

Nine facilities in Iowa that hold approximately 8,000 inmates each day

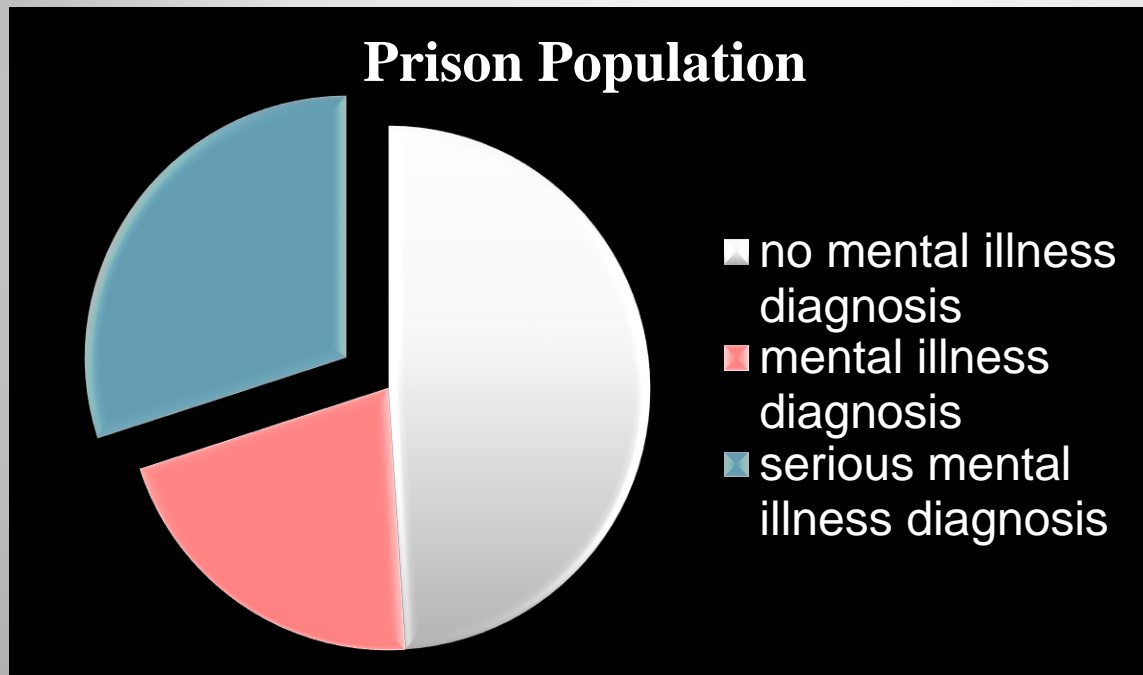

Prison Population and Mental Health

51% inmates diagnosed with a mental illness

Prison Population and Mental Health

30% inmates diagnosed with a serious mental illness

The offender recidivism rate in general for the three-year period from FY 2013 through FY 2016 is 34.2%. Rate of recidivism among offenders with a behavioral health disorder is as high as **80%**.

Addressing High Rates of Recidivism

- Prisons (Iowa Dept. of Corrections): Individuals are given a 30-day supply of all current medications upon release.
- County Jails: No supply provided at time of release.
- Does not provide an adequate amount of time for the individual to achieve the following:
 - Locate a medical provider.
 - Be evaluated by a medical provider to receive new RXs.
 - Establish financial and medical assistance.
 - Establish source or continuous medication assistance such as Medicaid, Medicare, Patient Assistance Program, etc.
 - Average waiting period to see a behavioral health provider in Polk County, IA is 80-100 days. In rural shortage areas, waiting period could be greater.
- Corrections Revolving Door.

**Can we reduce the rate of
recidivism among
offenders with behavioral
health disorders by
providing additional access
to behavioral health
medications?**

THE LOCAL JAIL MODEL

Provide immediate primary care services and up to 90 days of behavioral health prescription drug coverage for transitioning offenders released from the county jail.

Upon Release:

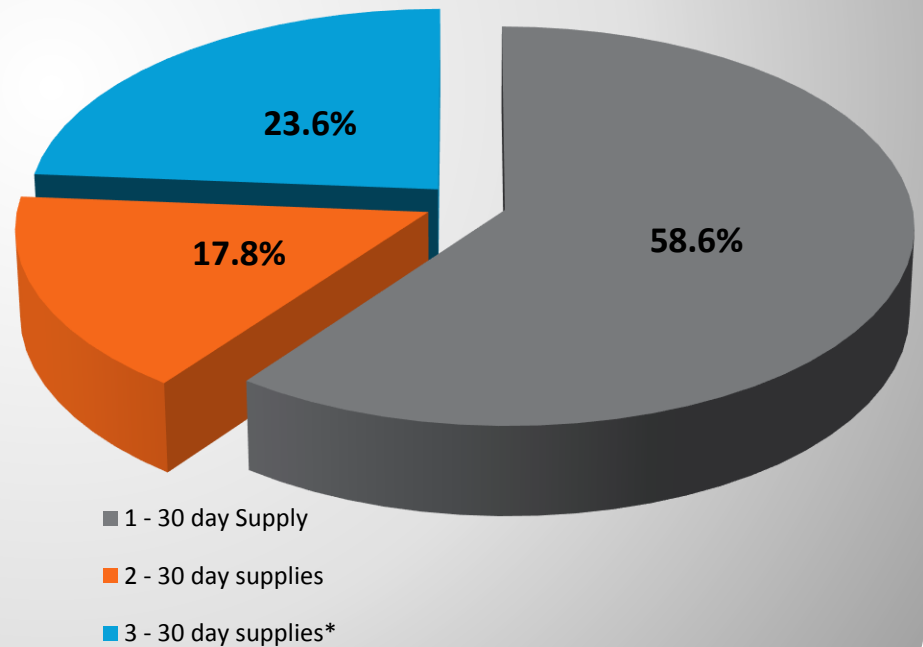

1. Individuals directed to local Federally Qualified Health Center. Patients to be seen on walk-in or appointment basis.
2. Medical home is established if not present.
3. 30-day Behavioral Health RX (w/ two 30-day refills) filled at FQHC affiliated 340B Pharmacy.
4. Individuals transitioned to local community mental health center if additional assistance required.

RECIDIVISM ANALYSIS POLK COUNTY

Program Engagement by Participants (N = 454)

- Study period March 4, 2013 – December 31, 2015
- 454 program participants
- 1,723 scripts filled
- Prescription Costs: \$25,892.36
- Prescription Use per Individual
 - Max:
 - 34 RX for a participant that used the program twice
 - 18 RX for a participant that used the program for 3 months
 - Min: 1 RX
 - Average: 3.8 RX

<u>Number of Times Booked</u>	<u>Number of Participants</u>	<u>Percent</u>

Polk County Program Participant Booking History July 1, 2008, to December 31, 2015

- 50% of participants have been booked into Jail five or more time.
- Severity of population served, in terms of recidivism, has increased since last analysis.

Recidivism analysis

Recidivism Analysis: First 90 Days post release: March 4, 2013 through October 14, 2015

Recidivism Per Group in 90 Day Study

- Program completers recidivate significantly less than non-participants with a mental illness indicator.

Case Study:

- Patient trends indicates he is staying out of jail for the same length of time he is taking medication.

Drilling Down - who is recidivating

Program Participants That Did Not Recidivate
March 4, 2013 through October 14, 2015

- Many of the participants have stayed out of jail a year or longer.
- 340 participants stayed out at least 90 days.

What Happens After 90 Days?

Behavioral Health Voucher Program

Overview: Provides free access to behavioral health medications for safety net patients living in Iowa. The program is designed to help supplement an FQHC's capacity to serve safety net patients with behavioral health disorders.

- Provides patient access to critical behavioral health medications until a patient can be transitioned to community mental health center or medical center
- Prescription assistance for Iowans between 138-200 FPL with high deductible (Bronze) plans purchased on the Exchange
- Temporary assistance for patients transitioning to Medicaid or state and federal programs

Behavioral Health Voucher Program

Patient Eligibility: Any safety net patient living in Iowa with a household income up to 200% of the Federal Poverty Level that is **uninsured or underinsured** will be able to use this program.

- Patient must seek care at the local FQHC
- No limit on the number of prescriptions/vouchers each patient is eligible to use.
- Valid only for non-controlled medications prescribed to treat a behavioral health illness.
- Dispensed in 30-day quantities

Behavioral Health Voucher Program - Formulary

ADHD/Narcolepsy

Atomoxetine cap 10/18/25/40/60/80/100mg
Guanfacine tab 1/2 mg

Antianxiety

Buspirone tab 5/10/15/30 mg
Clonazepam tab 0.25/0.5/1/2 mg (C-IV)

Trazodone tab 50/100/150 mg
Venlafaxine XR cap 37.5/75/150 mg
Venlafaxine IR tab 37.5/50/75 /100 mg

Antipsychotic/Mood Disorder

Chlorpromazine tab 10/25/50/100/200 mg
Clozapine tab 25/50/100 mg
Fluphenazine tab 1/2.5/5/10 mg
Fluphenazine Oral Liquid 5mg/ml
Fluphenazine Decanoate injection 25mg/ml
Haloperidol tab 1/2/5/10 mg
Haloperidol Oral Concentrate 2mg/ml
Haloperidol Lactate injection 5mg/ml
Haloperidol Decanoate inject 50/100 mg/ml
Lamotrigine tab 25/100/150/200 mg
Lithium Carbonate cap 150/300 mg
Lithium Carbonate SR tab 300/450 mg
Lithium Citrate Oral Solution 8mEq/5ml
Olanzapine tab 2.5/5/7.5/10/15/20 mg
Perphenazine tab 2/4/8/16 mg
Quetiapine 25/50/100/200/300/400 mg
Risperidone tab 0.25/0.5/1/2/3/4mg
Thiothixene cap 1/2/5/10 mg
Ziprasidone 20/40/60/80 mg

Anticonvulsant

Carbamazepine tab 100/200 mg
Divalproex DR tab (12 hour) 125/250/500 mg
Divalproex ER tab (24 hour) 250/500 mg
Extrapyramidal Symptoms/Prophylaxis/PTSD
Benztropine tab 0.5/1/2/ mg
Benztropine injection 2mg/2ml
Prazosin cap 1/2/5/mg
Trihexyphenidyl tab 2/5/ mg

Behavioral Health Voucher Program

- **FQHC Requirements:** The program is available to any of Iowa's FQHCs with an in-house or contracted 340B pharmacy
- The FQHC's 340B pharmacy is reimbursed at 340B rates for the cost of medications dispensed plus contracted 340B dispensing fee
- Vouchers can be utilized for any medications listed on the behavioral health formulary. Prescriptions are dispensed in 30 day quantities
- Reimbursements made on a monthly basis

ADDRESSING HIGH RATES OF RECIDIVISM

PROGRAM INTEGRATION

Partnership with Office of the Attorney General and SafeNetRx

- Integrated Counties now Operating:
 - Polk
 - Dallas
 - Pottawattamie
 - Story
 - Woodbury
 - Black Hawk
- Counties Ready Pending Pharmacy:
 - Linn
 - Des Moines
 - Lee
- Counties Not Interested:
 - Dubuque
 - Scott
 - Johnson

Goal: Make program available to 50% of Iowa's county jail population.

Strategic Partnership: NAMI - Iowa

Craig Matske, NAMI – Iowa Chair

- Former Polk County Jail Administrator
- Assistance working with Jail Staff

Mental Health Redesign

- Outreach workers in Pott County Jail
- Funded through Mental Health Region

Iowa Department of Corrections Central Pharmacy Pilot

Provide 90 days of behavioral health prescription drug coverage for transitioning State offenders.

Upon Release:

1. Individuals given a 30-day supply of all current medications.
2. Eligible behavioral health prescriptions (30-day RX with one 30-day refill) are transferred directly from DOC Pharmacy to a participating local pharmacy.
3. Extends behavioral health medication benefit period to a full 90 days.

Program launched April 1, 2013

Iowa Department of Corrections Central Pharmacy Pilot

Program Usage

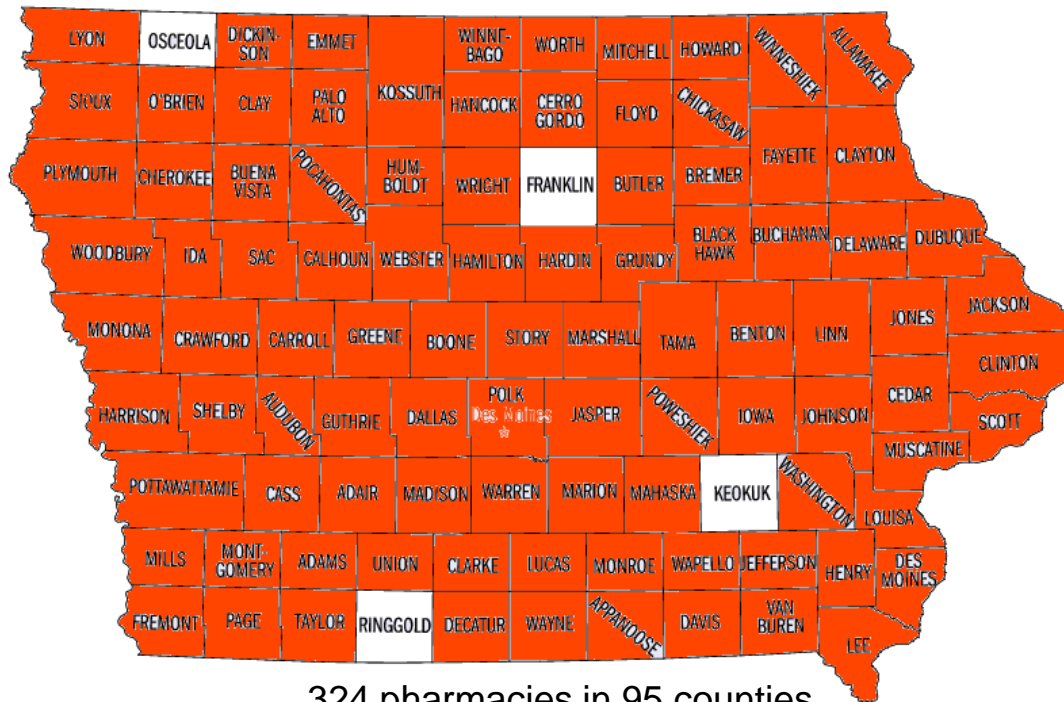

DOC Vouchers Usage		
Year	# of Vouchers	Patients
FY 2013	153	54
FY 2014	1,329	572
FY 2015	930	367
FY 2016	1,037	478
Total	3,449	1,471

Pharmacy Network and Reimbursement

- 324 pharmacies participate in the DOC program covering 95 of Iowa's 99 counties
- Online system for submitting vouchers for payment
- Claims include jail ID number which connects prescription usage to the offender, which in turn connects to booking history

Iowa Medication Voucher Program

Pharmacy Participation

Iowa Drug Donation Repository

- *Administrative Rules established in 2007*
- *Public Health Department 641-Chapter 109*
- *Regulated by the Iowa Board of Pharmacy*

Overview: Iowans in need of assistance can receive medications and medical supplies for little or no cost. Donations are received from long-term care dispensing pharmacies, medical facilities, and individuals. The medications and supplies are inspected by a pharmacist, distributed to medical facilities or pharmacies, and dispensed to Iowans in need.

Recipient Eligibility: Iowans at or below 200% of the federal poverty level who are uninsured or under-insured are eligible to receive donated drugs.

Donor Eligibility: Any organization or individual in the country can donate medications in their original sealed container or in tamper-evident packaging.

Dispenser Eligibility: Any pharmacy or medical facility with authorization to dispense per State administrative rules may re-dispense donated medications.

Patient eligibility

- IPDC's drug donation repository helps redistribute medications and supplies to safety-net patients who cannot afford their prescriptions
- Safety-net patients:
 - Uninsured or underinsured lowans with incomes 200 percent of the federal poverty line or below
 - Medicaid patients in transition
 - Patients who use high-cost medications but are unable to access them
 - Underinsured patients participating on the Insurance Exchange
 - State and local offenders
 - Patients with chronic conditions (ex. psychiatric conditions)

Donor eligibility

Most Common Donors:

- Long-term care dispensing pharmacies
- Medical facilities
- Retail pharmacies
- Primary care and specialty clinics
- Community mental health centers
- Any organization or individual in the country can donate medications

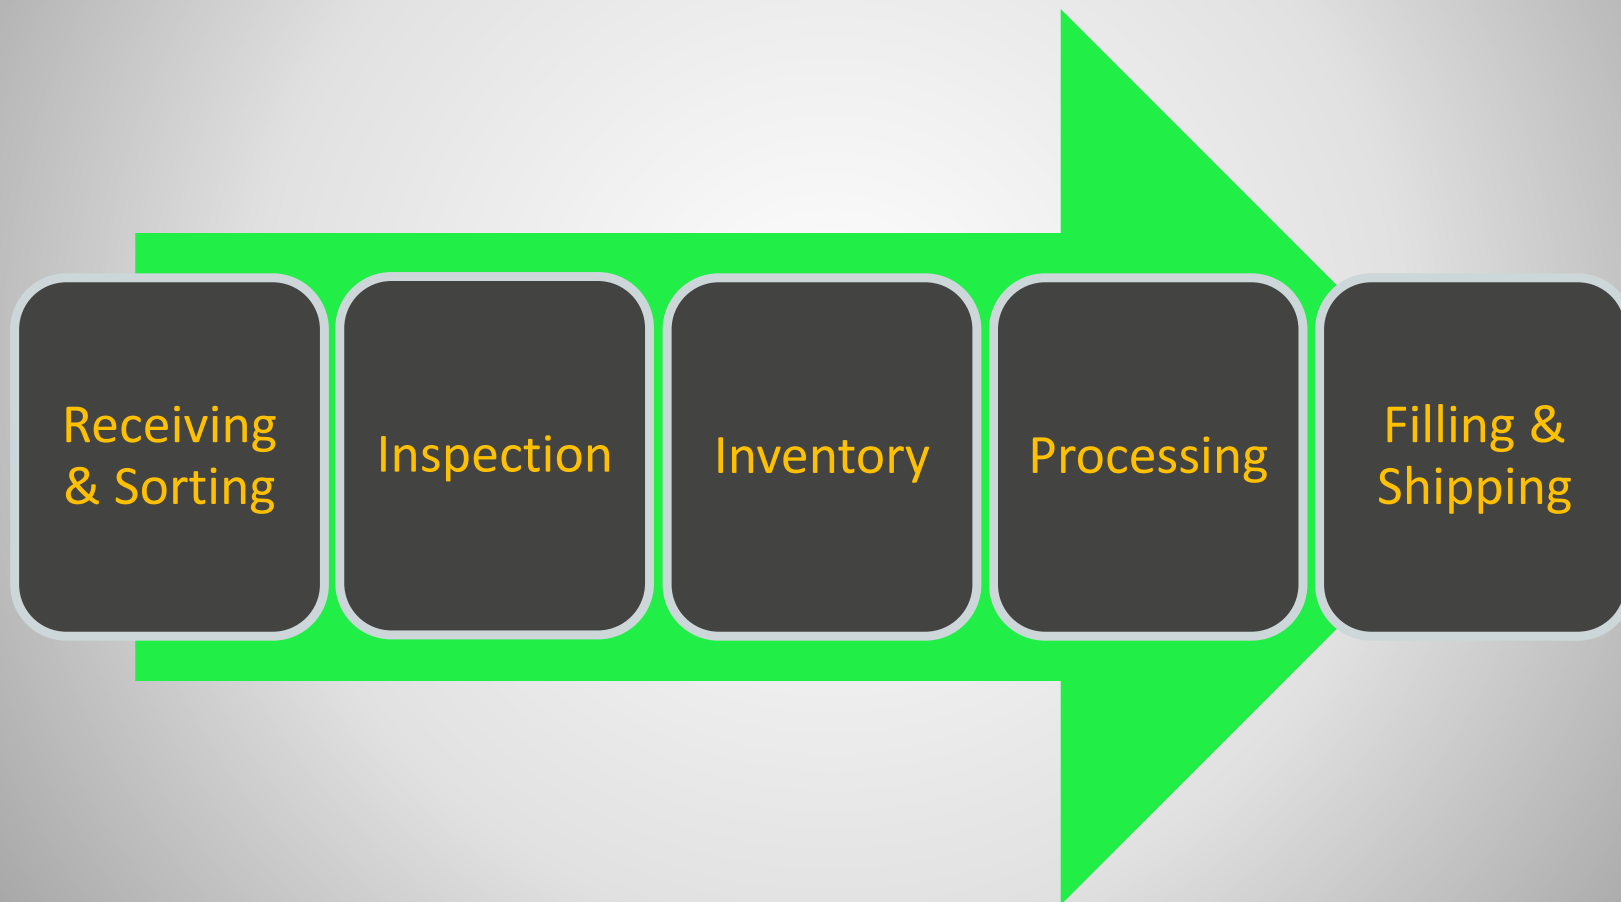

Donation Requirements:

- Non-controlled medications packaged in their original sealed container or in tamper-evident packaging
- Non-expired or short-dated medications dated 6+ months
- Medical supplies and over-the-counter medications
- Must not require refrigeration

Some Major Disease States Covered by Donated Medications

- Alzheimer's
- Asthma
- Behavioral Health
- Cardiac/Hypertension
- Cancer/Chemotherapy
- Depression
- Diabetes
- Multiple Sclerosis
- Parkinson's
- Renal Failure
- Seizures
- Transplant Rejection

Drug donation repository process

Receiving & sorting

- Once medications are received from a facility, medications are sorted prior to inspection
- Drugs not kept:
 - Tablets with no markings
 - Broken/split tablets
 - Controlled substances (CS)
 - Drug/label do not match
 - Short-dated or expired medications
 - Unusable packaging
- Unused medications are sent to incinerator, controlled drugs sent back to facility
- Drugs kept are sorted by name, strength, and dosage form

Inspection

- Once sorted, the pharmacist inspects each card to determine whether the drug is correctly labeled
 - Drug is identified using Facts and Comparisons
 - Pharmacist looks at pill color, shape, imprint codes, and NDC
- Disposal of cards
 - Cannot use split/broken pills
 - Foil backing of card is ripped, damaged, punctured

Inventory

- Following inspection, the number of tablets or capsules on each card is counted and entered into inventory
- Medication and supply inventory is available online using a username and password
- An average retail value is assigned to each unit
- Inventory is then organized and put on the shelf

Processing

- After inventory, all medications are processed in accordance with Iowa Code 135M.4 and Iowa Administrative Rule Chapter 109
- All patient information is removed from each card per HIPAA compliance
- Drug name, strength, quantity, expiration and NDC remain on card
- Medications and supplies in bottles and all other forms undergo same process

Filling & shipping

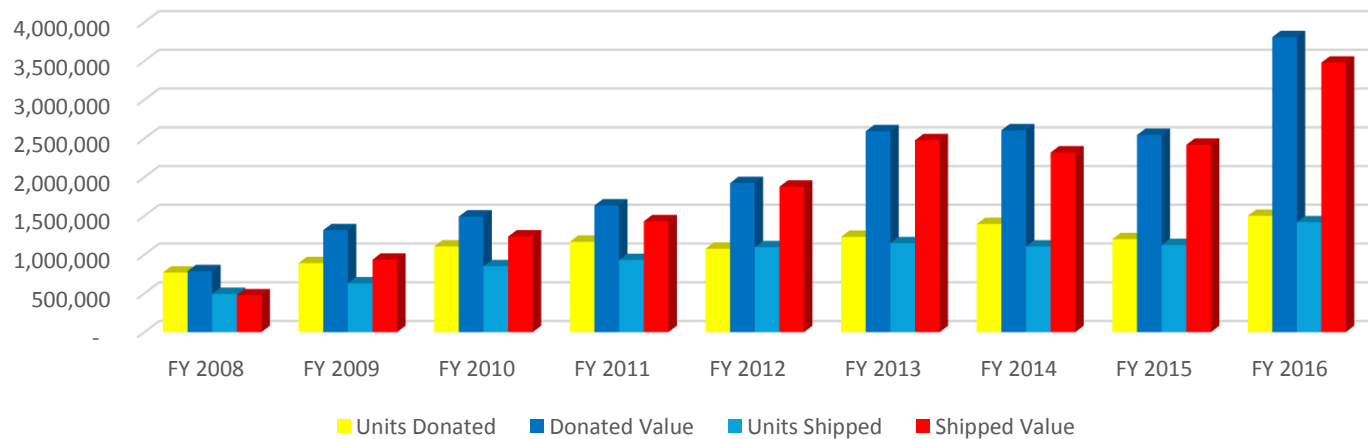

- Licensed as a Wholesale Distributor
- Medical facilities submit orders to IPDC online or via email and fax
- Approximately 250+ orders are filled each month
- All orders are filled and shipped via UPS and USPS. In the event of an emergency, an order will be hand-delivered
- Orders are generally received 1-3 days after being placed

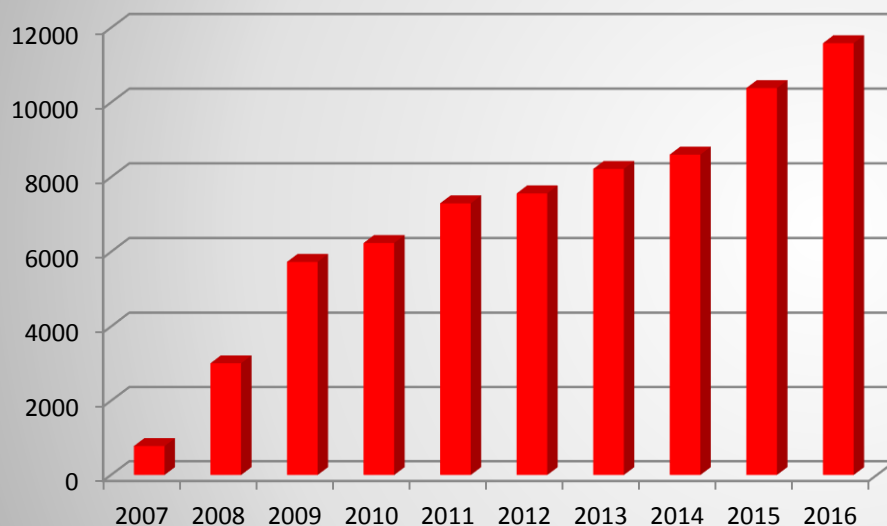

Drug Donation Repository: Historical Performance

Year	Units Donated	Donated Value	Units Shipped	Shipped Value	Orders Filled
FY 2008	768,311	\$ 786,400.15	492,686	\$ 475,591.62

2015	10,388
2016	11,590

Over 69,000 lowans have benefitted from donated medications and supplies!

Drug Donation Repository: Return on Investment

- Iowa's Drug Donation Repository Program is the largest drug repository in the country.
- Over 69,000 Iowans have been provided medication and supplies since the program was established in 2007.*
- Over **\$16.6 million** in free medical supplies and medications has been shipped to participating medical facilities and pharmacies.
- Over **220** medical facilities and pharmacies receive medications and supplies from the Drug Donation Repository Program.
- Every **\$1** used to administer the program yields over **\$7** in donated medications and supplies.

*Total based on number of patients served quarterly as reported by participating medical facilities and pharmacies.
